

## Functional Buttons Test Case

in list [To Do](#)

### Description [Edit](#)

**This test will verify that all buttons are functional.**

#### Steps

1. Navigate to <http://localhost:3000>
2. Click "See All Bots" button
3. Click "Draw" button
4. Click any two "Add to Duo" buttons
5. Click "Remove from Duo" buttons
6. Click any two "Add to Duo" buttons again
7. Click "DUEL!" button
8. Click "Play again" button

#### Test Postconditions

- Clicking the "See All Bots" button should display all of bots
- Clicking the "Draw" button should display 5 random bots
- Clicking the first "Add to Duo" button should move that bot to "Your Duo"
- Clicking the second "Add to Duo" button should move that bot to "Your Duo" and display the "DUEL!" button
- Clicking the "Remove from Duo" button should remove the bot from "Your Duo"
- Clicking the "DUEL!" button should prompt the game to play, display whether the user won or lost, add the win/loss to the running total, and display the "Play again!" button
- Clicking the "Play again!" button should clear the game and display the "Draw" button
